topher
Ries

Teacher, Fluent in code
Heart for Missions, gardening

Three anchors

C **Gardening** Feeding, peace,
Caring for what grows

R **Coding** Logic, structure
Building an IT Career

{ **Mission** Presence, people,
Living with purpose

Design challenges

Choosing what elements to incorporate into my logo was the most challenging. Designing it in such a way that it appears more like a logo than graffiti required a few design revisions.

I removed a background picture of Montana mountains in favour of a fishing boat to align more closely with the floating logo which represents travelling to missions.I also removed chunky border lines in favour of sleek lines which are more aesthetic.

The design describes my love for gardening(leaves and branches), programming({ symbol) and mission work. The logo has my initials shaped like a boat(mission work).
